HOLIDAY TIPS TO REDUCE WASTE AND INCREASE RECYCLING

- * When shopping for gifts, bring your own bag.
- * Reuse or Recycle baskets, tins or boxes when wrapping gifts.
- * Try to find tags and cards that are printed on recycled paper or use partial post consumer materials or make your own!

- * Did you know that wrapping paper is NOT recyclable? Much of the wrapping paper produced today contains plastics or other materials that make it impossible for it to be recycled into post consumer products. Please keep all wrapping paper out of the blue side of your dual sort recycling cart.

- * Wrap gifts in recycled paper or get creative and use magazines or newspaper.

- * This year, consider a potted tree that can be replanted or a natural tree that has not been flocked so it can be composted.

- * Did you know that it is illegal to throw electronics and hazardous waste in the garbage? As you replace old electronics and batteries it is important to remember that these items are hazardous waste and it is illegal to dispose of them in your garbage cart. Please bring them, free of charge, to the Household Hazardous Waste Center at 565 Jacoby Street, San Rafael. *If you have questions about hazardous waste drop off please call (415) 485-6806.*
