

# Sorting Station Buying List

The purpose of this guide is to give businesses and schools ideas for containers that can be used indoors and outdoors to collect recycling, compost, and garbage. Marin Sanitary does not provide containers for the internal collection and storage of materials. Our carts are intended for curbside pick-up of materials only. You may also want to check your local businesses for recycling bins (such as office supply and discount stores).

Keep in mind when shopping that Marin Sanitary is a **4 cart system**. Purchasing to match this system may be easiest so that no further sorting needs to be done after items have been placed in the bins (**blue**-paper/cardboard; **brown**-glass/ plastic/aluminum/tin; **green**-organics; **gray**-garbage).

Bagit© System

Unique, minimal recycling containers with stand and bag; variety of products to promote reduce, reuse, and recycle programs.
