CONSERVATION – OUR EARTH, OUR MISSION, OUR JOB

13 July 2018

RE: MARIN RESOURCE RECOVERY CENTER
RECYCLING CERTIFICATION

To Whom It May Concern:

The Marin Resource Recovery Center (MRRC), in San Rafael, California, is a Material Recovery Facility that accepts mixed construction and demolition loads, as well as many other types of materials. All incoming loads are sorted and processed to remove recyclable materials.

MRRC provides quarterly reports to the Marin County Hazardous and Solid Waste Joint Powers Authority that are used by that agency for state reporting requirements. Attached is the most recent submission for the 2nd quarter of 2018. A total of 65,853 tons were received by the facility during the quarter. 35,456 tons were removed from the waste stream and recycled, and 30,397 tons were landfilled. This equates to a recycling rate of 53.8%.

Due to an equipment malfunction in early November 2017, we have included fines in our MSW calculation in Q2. This puts pressure on the recycling rate %. We have addressed the issue and the new equipment should be delivered and installed by August 2018. Therefore, you will also see downward pressure on the recycling rate during most of 2018. We project our 2019 recycling rate to increase to its historical levels.

Sincerely,

Charlie Wicke
Director, Financial Reporting
Marin Sanitary Service
