

## **Marin Sanitary Service's Tour Program Policy for Preschool Aged Children**

Due to safety concerns, there are some limits with regards to preschool aged children participating in our tour program. For preschool children aged 4-5 years old, the policy is as follows:

1. In order to participate in a facility tour (which will be limited to the following areas: the classroom, the outdoor bales, the front loader area, the paper bales, the transfer station, and the farm), there must be a 2 students per 1 adult chaperone ratio present.
2. If you are unable to meet the 2:1 ratio requirement, the tour will be limited to the classroom and the farm areas.

For preschool children younger than 4-5 years old, the tour will be limited to the classroom and farm areas, regardless of the student to adult chaperone ratio present.

Teachers are encouraged to speak with the Schools Recycling Coordinator (see contact information below) prior to the tour to discuss what type of recycling-related activity would best fit the needs and interests of their class. The scope of these activities is limited, but input from the teachers would be greatly appreciated.

If you have any questions about this policy or would like to schedule a tour, please contact Izzy Parnell-Wolfe by emailing her at [izzy.parnell-wolfe@marinsanitary.com](mailto:izzy.parnell-wolfe@marinsanitary.com) or calling 415-458-5539.
