MULTIFAMILY DWELLING
ORGANICS RECYCLING LAW

THERE ARE THREE LAWS THAT IMPACT BUSINESSES AND MULTIFAMILY DWELLINGS in California: *SB 1383: Short-lived Climate Pollutants, AB: 341 Mandatory Commercial Recycling*, and *AB 1826: Mandatory Commercial Organics Recycling*. These laws help the state reach its diversion goals and keep resources out of the landfill. MSS can work with you to find the most economical way to become compliant.

SB 1383: SHORT–LIVED CLIMATE POLLUTANTS (SLCP)

WHEN ORGANIC MATERIAL IS SENT TO LANDFILL, it breaks down without access to oxygen and creates methane gas. Landfills are the third largest source in the U.S. of human-caused methane – a potent heat-trapping gas that contributes to climate change. Senate Bill 1383 sets statewide targets to reduce disposal of compostable waste in our landfills. It also includes goals for the recovery of edible food.

SB 1383

Senate Bill 1383 sets statewide targets to significantly reduce the disposal of organic waste in landfill, and recover edible food.

COMPOSTABLES
Food scraps, food-soiled paper & plant trimmings

HOW DO YOU COMPLY?

✓ **SUBSCRIBE TO COMPOSTABLES SERVICE**
Marin Sanitary Service offers garbage, recycling and compostables (as required by SB 1383) services. When service is set up, a multifamily dwelling recycling outreach coordinator will work with you to help set up the right services.

✓ **PROVIDE COLLECTION RECEPTACLES FOR YOUR TENANTS (WHERE APPLICABLE)**

✓ **PROVIDE EDUCATION AND ENSURE TENANTS PARTICIPATE IN THE ORGANICS RECOVERY PROGRAM**
- Annually provide information on the program to employees and customers.
- Ensure employees comply with the program.
- Where applicable, provide information on the organics recovery program to new tenants within 14 days of moving in.

✓ **PREVENT CONTAMINATION**
SB 1383 has contamination requirements and requires that customers must not put any organic material in their landfill carts.
