

MANDATORY CALIFORNIA RECYCLING & COMPOSTING

There are two important laws that impact businesses in California: AB 1826 the Mandatory Commercial Organics Recycling Law and AB 341 Mandatory Commercial Recycling Law. These laws are aimed at helping the state reach its diversion goals and to keep resources out of the landfill. MSS can work with your business to find the most economical way to become compliant under the laws.

AB 341: COMMERCIAL RECYCLING

Assembly Bill 341 requires California businesses (including public entities) that generate four (4) or more cubic yards of solid waste per week to recycle. The purpose of the 2012 law is to reduce greenhouse gas emissions by diverting commercial solid waste from landfills and expand opportunities for recycling in California.

HOW DO YOU COMPLY?

Subscribe to recycling programs such as containers, paper, and cardboard recycling.

AB 1826: ORGANICS RECYCLING

Assembly Bill 1826 requires California businesses (including public entities) that generate four (4) or more cubic yards of solid waste per week to recycle their organic waste. The threshold is expected to drop to two (2) or more cubic yards of solid waste per week by the end of 2020.

HOW DO YOU COMPLY?

Subscribe to an organics recycling service like the Food to Energy and/or commercial composting.

HERE'S HOW WE CAN HELP

SUBSCRIBE TO RECYCLING & COMPOSTABLES SERVICE

It's easy to subscribe to our recycling, compostables and/or Food 2 Energy collection services. When you set up your service with us, our outreach coordinator will work with you to find the most economical way to become compliant and successful under the law.

SITE VISIT & AUDIT

Commercial customers who meet the threshold of AB 341 and AB 1826 will be contacted by our recycling coordinators to arrange for a site visit to perform a complete walk-through and identify opportunities for greater waste reduction and diversion.

ONGOING SUPPORT

Our coordinators can provide ongoing technical, educational, and training workshops and assistance.

COMMERCIAL SERVICE OPTIONS

Your rate is based on the size, number of carts and/or bins, and frequency of your garbage service. When you set up service, a customer support representative will review your information and refer you to an outreach coordinator who will perform a service assessment with you to determine what services are appropriate for the needs of your business. All container types and sizes may not be available at all business locations depending on a variety of factors including safety, accessibility, and efficiency.

RECYCLE MORE SAVE MONEY

EVERYTHING IN YOUR GARBAGE CARTS AND/OR BINS GOES DIRECTLY TO THE LANDFILL

RIGHT SIZE YOUR SERVICE

We do not sort or recycle anything in the garbage. If you recycle everything possible using your recycling carts or bins you may be able to reduce your garbage service and save money!

To determine if the garbage service at your business can be reduced, you'll need to schedule a free onsite assessment with one of our recycling coordinators. Not only will they assess your service requirements they'll work with you and your staff and/or tenants to help you recycle more and reduce your garbage.

READY TO GET STARTED?

[Complete this online form](#) to contact a recycling coordinator or call us at (415) 456-2601.

FOOD 2 ENERGY

Food 2 Energy (F2E) is a unique program that diverts organic food waste from the landfill and into the energy grid. We pick up food waste from participating businesses and convert the material into a bio-gas through anaerobic digestion. That gas is then utilized as a power source for the Central Marin Sanitation Agency and helps power the operation of their sewage treatment facility.

HOW DOES YOUR BUSINESS PARTICIPATE?

If you are a large food waste generator such as a restaurant, assisted living facility, grocery store, school, hospital, or any other business or institutional facility that has food service you may qualify for the Food 2 Energy program.
